May 2022-present

Creating and managing Figma assets and documentation for consumer and customer Web and Native component and pattern libraries. Collaborating with partners across product design and engineering to deliver a full redesign of the Haven system (over 100 components). Enhanced AA and AAA accessibility by delivering a revamped, extensible token library to accommodate product needs for Realtor and theming for new products and acquisitions.

Supporting design and engineering teams in office hour sessions and through asynchronous communication to ensure product consistency and to help teams maintain momentum and efficiency.

USAA

Lead Designer / Reveille Design System

March 2017 – May 2022

Collaborated with a team of designers and developers to research, design, test, and document an enterprise library of reusable components and patterns that streamline efficiencies for design and dev teams across the company.

Established a comprehensive library of tokens to track reusable values for all products and themes at USAA. Wrote guidance for component usage, tested components and foundations for WCAG accessibility, and conducted user research with product teams to evolve the design system and create an inclusive user experience.

Volusion.com

Senior Designer

January 2013 – March 2017

Directed multiple concurrent projects from concept to delivery. Created custom, accessible CSS style guides and full site redesigns for small businesses using the flexible Bootstrap framework.

Led a team of designers and interns to create user-centered, responsive e-commerce sites for external clients. Worked regularly with developers to improve internal workflow, create prototypes, and implement site redesigns.
